Strengthening services for survivors of gender-based violence in Papua New Guinea and Timor-Leste

PROGRAMME OVERVIEW

September 2020 - December 2022

Facilitated by the UNFPA Asia-Pacific Regional Office and with support from Zonta International, the UNFPA Country Offices in Papua New Guinea and Timor-Leste are working to enhance the quality of services available to women experiencing violence, and the coordination between service providers.

The programme aims to ensure that survivors of gender-based violence will have more effective support for their long-term recovery and improved opportunities to leave the cycle of violence.

EXPECTED OUTCOMES

1. Health service providers have the necessary knowledge and capacity to deliver quality, essential health services to GBV survivors.

2. Relevant government authorities have the capacity to establish multi-sectoral GBV coordination mechanisms.
