Q&A in response to
REQUEST FOR QUOTATION
RFQ Nº UNFPA/BKK/RFQ/2020/003
“The Provision of Internet Leased Line Service”

Technical requirement
4. The ISP must divide the internet connection into two separate fiber optic media for redundancy purposes.

Question:

Q1: This separate fiber optic media link will be Active + Active link or Active + Standby Link
A1 They will be Active + Active.

Q2: Do both links need to have their own router? If yes, there will be 2 routers for this proposal.
A2: Yes, these two links require two separate routers to avoid a single point of failure.
